Incense Movement

For a world you want.

My gift to you!

Incense plant

1: Gift

By taking an Iboza riparia plant you do not have to commit to anything. And it costs nothing.

2: Passive partnership

You take an Iboza riparia plant and care for it lovingly.

Positive thoughts for mankind and the earth, followed by actions.

3: Active partnership :

You take an Iboza riparia plant and care for it lovingly. Positive thoughts for mankind and the earth, followed by actions.

Grow Iboza riparia offshoots, give them away as gifts to relatives, friends and acquaintances.

This is how we gain new partners for our movement.

Incense Movement

Passive partnership:

Love and care for
the plant world

1

Positive thoughts for
humanity

2

Rescuing thoughts and
purification of mother
EARTH

3

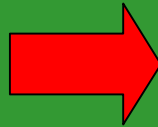

Incense Movement

Active partnership:

Growing of offshoots to
pass on

Incense Movement

If you want to donate something for your Iboza plant, or you want to support the Incense Movement, of course you are welcome to do so. .

Donations go to the
ORGANIC FARM PRIMA STALLA

We produce food with love and by hand because we feel that we should have a relationship with our food so that it can transfer life to us when we eat it.

language selection   

We live in a world which not all people like the way it is – be it the abuse of nature, the destruction of culture, the wars we are involved in, or the exploitation of people, or be it that life has no value anymore. All this is nurtured by a force, or an energy, present everywhere on our Earth. A loving contribution to the plant world, good thoughts for humanity and positive thoughts for our Mother Earth.

Incense Movement

But the possibility for a better life does exist, it is enough to understand the principle of dominance.

95 % of humankind consists of followers who have no opinion of their own and only tag along with the prevailing opinion.

If we are more than 2.5% who want another world, we have won.
